

April 1, 2025

OMV Gas Storage GmbH

Unbundled Services – Withdrawal Rate

General Information

Our Unbundled Services enable you to create tailor made storage services according to your needs. You can either combine the Unbundled Services Injection Rate, Withdrawal Rate and Working Gas Volume or combine Bundled and Unbundled Services.

The Unbundled Service Withdrawal Rate is available in steps of 1 MWh/h.

Service Period

The minimum Service Period for the Unbundled Service Withdrawal Rate is **1 day**.

Storage Tariffs starting from 1st April 2025

For tariff details regarding the Unbundled Service Withdrawal Rate please check the online tariff calculator of OMV Gas Storage GmbH available at <https://ocb-st.omv.com>.

Contrary to the stipulations set out in article 9 of the Storage-GTC, no tariff escalation will be applied.

Energy Costs

No energy costs arise out of the usage of this product.

Withdrawal Rate on interruptible basis

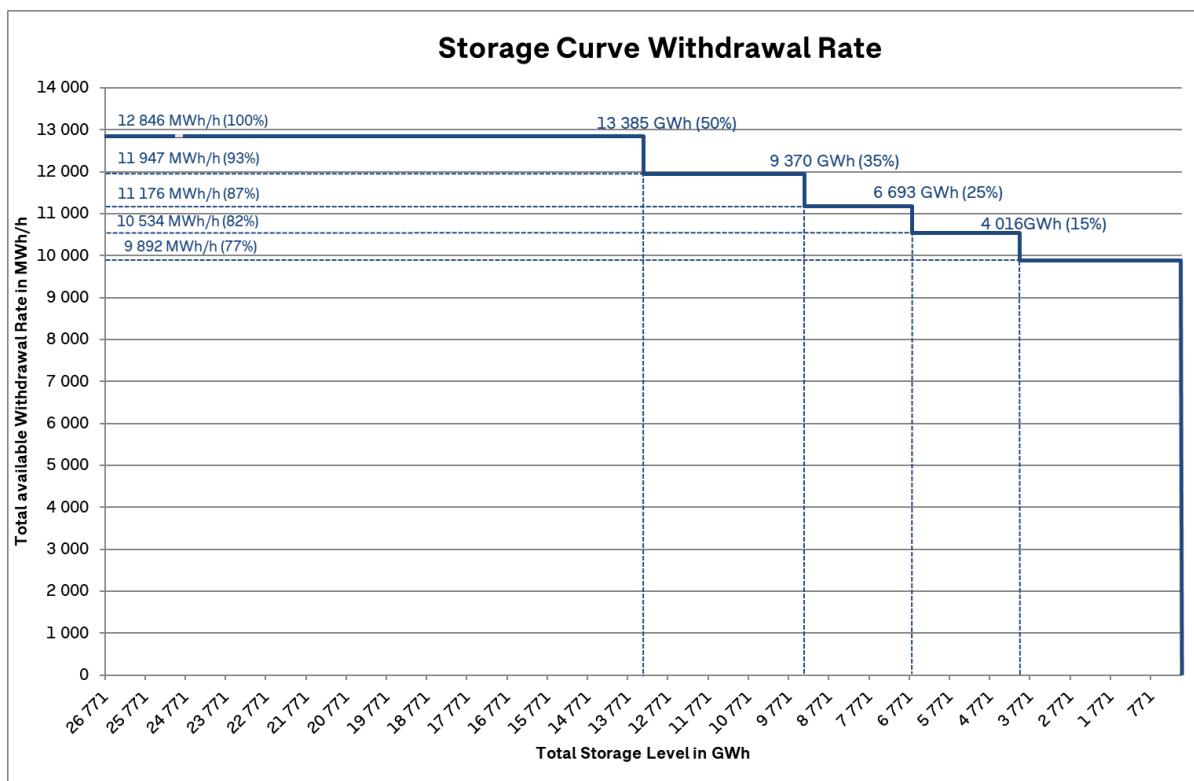

On Customer request or in case of unavailability of firm capacities, the Unbundled Service Withdrawal Rate is also available on interruptible basis whereas the tariff reflects the probability of interruption. The Interruption procedure shall be understood as “**first come – last interrupted**”. The Interruption is therefore carried out in the reverse order to the date of the contract conclusion – the contract with the earlier closing date will be interrupted last.

An overview of the currently booked capacities is available at <https://ocb-st.omv.com>.

Transmission Fee

For the Unbundled Service Withdrawal Rate no transmission fees must be paid.

Storage Curve

A possible reduction of the total Withdrawal Rate depends on the total storage level of the OMV-Storage pool and not on your individual storage level. The actual total storage level can be checked at <https://ocb-st.omv.com>

For further details please check the homepage of [OMV Gas Storage](#) available or [contact us](#).
