# OMV Gas Storage Germany GmbH

## Unbundled Service Injection- or Withdrawal rate: NETRA & GTS

### **General Information:**

Our Unbundled Services enable you to create tailor made storage services according to your needs. You can either combine the Unbundled Services Injection Rate, Withdrawal Rate and Working Gas Volume or combine Bundled and Unbundled Services.

The Unbundled Service Injection- or Withdrawal rate is available in steps of 1 MWh/h. The **minimum available Injection- or Withdrawal Rate is 10 MWh/h.**

### **Service Period**

The **minimum Service Period** for the Unbundled Service Injection- or Withdrawal Rate is **1 day**.

### **Storage Tariffs for Injection- or Withdrawal Rates starting from 1<sup>st</sup> April 2026:**

For tariff details regarding the Unbundled Service Injection Rate please check the online tariff calculator of OMV Gas Storage GmbH available at <https://ocb-st.omv.com>.

### **Energy Costs:**

For the Unbundled Service Injection Rate, **0.49 EUR per injected MWh will be charged.**

### **Transport Capacity GTS:**

The corresponding transport capacities have to be acquired by the customer.

### **Storage Curve:**

Please note that a possible reduction of the total Injection and Withdrawal Rates depends on your individual **storage level** of your booked WGV, your Injection- and Withdrawal Rates and will be calculated individually.

### **Injection- or Withdrawal Rate on interruptible basis:**

On Customer request or in case of unavailability of firm capacities, the Unbundled Service Injection- or Withdrawal Rate is also available on interruptible basis whereas the tariff reflects the probability of interruption.
