5 years	334

Energy Costs:

No energy costs or other variable costs arise out of the usage of this product.

Working Gas Volume on interruptible basis:

On Customer request or in case of unavailability of firm capacities the Unbundled Service Working Gas Volume is also available on interruptible basis. The tariff for the interruptible Unbundled Service Working Gas Volume reflects the probability of being interrupted.

You are entitled to use the committed interruptible Working Gas Volume to the full extent until OMV Gas Storage Germany GmbH reaches a total storage level of 90%.

Please make sure that your individual storage level of the Working Gas Volume booked on interruptible basis develops as a function of the total storage level as follows:

Total Storage Level (in %)*	Max. Storage Level of your INT-WGV (in %)
up to 90	100
90 to 95	50
95 to 99	25
at 100	0

* The actual total storage level can be checked <https://ocb-st.omv.com> at any time

As soon as the total storage level reaches 75%, OMV Gas Storage Germany GmbH will send you a reminder via e-mail.

In case your committed Withdrawal Rate does not suffice to meet the maximum storage levels described in the table above you

- Can buy firm Working Gas Volume on the secondary market and inform OMV Gas Storage Germany GmbH via Assignment notice accordingly and/or
- organise a Title Transfer of the working gas that has to be withdrawn with another storage customer

According to article 13.3 of the GTC's of OMV Gas Storage Germany GmbH, OMV Gas Storage Germany GmbH is entitled to sell remaining Gas.
